# CONVEYOR CURRENTS

CALIFORNIA  
**GRAIN  
& FEED**  
ASSOCIATION

Latest News and Events for California's Grain and Feed Industry.

### Aloha CGFA Members

CGFA's 96th Annual Convention will be April 22-25, 2020 at the Sheraton Maui Resort & Spa, Hawaii. Approximately 275 industry leaders will gather at the Sheraton for discussion of industry concerns during business sessions, social functions, and recreational events. The Convention provides the opportunity to bring together individuals from the grain, feed and related industries. The ability to convene a large representation of industry stakeholders enhances overall communication, builds relationships and assists in providing stability to the industry.

**Hotel Deadline for Group Rates are only available until March 27<sup>th</sup> – BOOK TODAY!!**

**Many Airlines are Offering Great Rates to Hawaii!!! Book Your Flight and Hotel and plan to join us in Maui.**

## Resource for Industry - CDFA Safe Animal Feed Education (SAFE) Program

The [Safe Animal Feed Education \(SAFE\)](#) program of California uses outreach, education, and a comprehensive Voluntary Quality Assurance program to lead the nation in ensuring a safe and wholesome supply of commercial feed. SAFE uses an approach that fosters voluntary compliance with the state laws and regulations to ensure the safe manufacture and use of commercial feed in a changing livestock feed market. This unique collaboration between SAFE and the feed industry benefits both the agricultural community and the consumer.

[Watch Our Industry Video Here](#)

How does SAFE work? California's poultry, livestock and dairy industries utilize vast amounts of diverse commodities and feed additives. Animal feed must be of high quality to ensure adequate health and a wholesome supply of meat, milk and eggs. The amount of animal feed commodities used in California has increased substantially over the past decade, making California the largest manufacturer of animal feed in the U.S. In addition, the number of livestock production operations and dairies that mix their own feed on-farm has risen significantly. The SAFE program provides outreach and education materials to promote good manufacturing practice for on-farm feed mixing.

How is SAFE funded? The Commercial Feed program is completely industry funded. Funds come from license fees and a tax paid on each ton of feed sold to livestock producers in the state.
