

**CALIFORNIA GRAIN & FEED ASSOCIATION
2016-2017 COMMITTEE PREFERENCE REQUEST**

President Bob Gallagher and the Board of Directors will soon be making committee appointments for the 2016-2017 membership year.

It is within the committees/study groups that industry problems are identified, analyzed, discussed--and where solutions and courses of action are born. Here the individual can have his/her voice heard and contribute effectively to the process of industry self determination. Committees and study groups also play a major role in the development of CGFA policy and the planning and scheduling of CGFA events. The final effectiveness of this system depends on your active involvement. Finally, study group participation enables you to receive special information mailings on areas of concern related to the study group classification. Our government Relations Committee is devoted to maintaining liaison with state legislators and actively lobbying legislation.

Although all requests for service cannot be accommodated most members do get their first choice and practically all members get at least their second choice. **BECOME INVOLVED** - indicate your **first** and **second** (There is no third choice) choices of committee/study group assignment below and return this form as soon as possible, but no later than **July 1, 2016**.
