SPECIAL **COVID-19 UPDATE**  
FROM YOUR TEAM AT AAMSI

---

### Cal-OSHA Issues Updated Safety and Health Guidance

Over the weekend the California Department of Industrial Relations Division of Occupational Safety and Health (Cal-OSHA) issued updated **Safety and Health Guidance** for use by agricultural employers and employees to prevent infection of COVID-19. The guidance does not introduce any new legal obligations, but because COVID-19 is widespread in the community, most California workplaces must consider the disease a workplace hazard. Several links to informational information and Q&A are included in the document.

Agricultural workers who normally wear Person Protection Equipment (PPEs) are expected to continue this practice. We received a list of suppliers of PPE from the California Department of Food and Agriculture which you can access [here](#).

As always, AAMSI will continue to update information as we receive it.
